## An efficient noninvasive method for discriminating among faeces of sympatric North American canids

Table showing haplotype name and GenBank accession number for sequences used to verify fragment length in different canid species.

Haplotypes in bold are novel to this study.

Urocyon cinereoargenteus haplotype sequence data are pending publication of Bozarth et al. (in preparation) Phylogeography of the gray fox (Urocyon cinereoargenteus) in the Eastern United States
